

SLIMLINE HEATERS

Low Cost

Thermostat

Water Resistant

Fully Certified

The latest innovation in energy efficient heating

The ECOHEATER Slimline Heater is a major innovation in low-cost, energy efficient heating and the only tube heater on the market with a patented built-in thermostat.

The attractive, space-saving design makes it suitable for use anywhere in the home or office and it is extremely versatile, with brackets for either wall mounting or floor standing operation.

The Slimline Heater is ideal for preventing dampness, condensation and freezing in a wide range of environments including built-in wardrobes, conservatories, sheds, garages, caravans and mobile homes, boats, shop windows and portable buildings.

✓ Built-in thermostat

Keeps energy usage to a minimum

✓ Highly versatile

Supplied with 1.5m push-fit cable, plug and brackets for either wall mounted or floor standing operation

✓ IP44 rating for water resistance

For use in areas and environments where water could come into contact with the heater

✓ High quality

Manufactured in seamless tube with easy-clean, white enamel finish

✓ Fully certified

CE approved and BS EN 60335/1:2002 compliant
