

KPNL30BL1

Alden, 30W Backlit LED Panel, 600x600

Product Overview

The Kosnic Alden LED panel offers direct backlit lighting with wide-angle optics to achieve even light distribution across the surface of the luminaire and is an easy-to-retrofit replacement for in-lay ceiling tile fittings. The panels are supplied with flicker-free drivers as standard and suitable for visually demanding non-transient task areas such as offices and educational premises where users require high quality lighting to maintain well-being.

Features

Save up to 50% energy usage compared to traditional fluorescent fittings

UGR <19 according to BS EN 12464

Class III panel supplied with class II flicker-free driver as standard

Polystyrene TP(a) rated diffuser

Compatible with the Kosnic emergency modules

DALI, 1-10V and PUSH alternative driver available

Optional suspension kit available

IP44 when ceiling recess mounted

High lumen output

Long life of 40,000h

Instant start

Negligible UV output

Emergency Module Compatible

The LED panel is compatible with the Kosnic emergency modules, which provide power in the event of a cut in the supply and must be wired to the un-switched supply through the un-switched Live terminal. The battery will supply the panel for over 3 hours at a reduced output.
