

USB SOCKETS

INDEPENDENT 2.1A 5V USB OUTLETS

WHAT'S **NEW?**

2 USB CHARGING
PORTS

BOTH SIMULTANEOUSLY
DELIVERING 5V 2.1A

Charge two devices simultaneously without fear of fluctuations within the power supply interfering! The load isn't split across both ports on our USB sockets, so you are guaranteed optimum charge every time!

SAFE CHARGING

Our one Gang USB sockets have been redesigned, so not only will you notice a relocation of the USB ports on the front of the plates but also a reduced product depth across all ranges, which means a shallower back box depth!

25mm Back Box

No additional spacers or mounting frames required.
Reduced depth across all ranges.*

*Define® & Definity™ require a 35mm Back Box

TWICE AS FAST

13A 2 Gang Socket Outlets
with 2 Integrated 2.1A USB Charging Ports...

Ease of installation

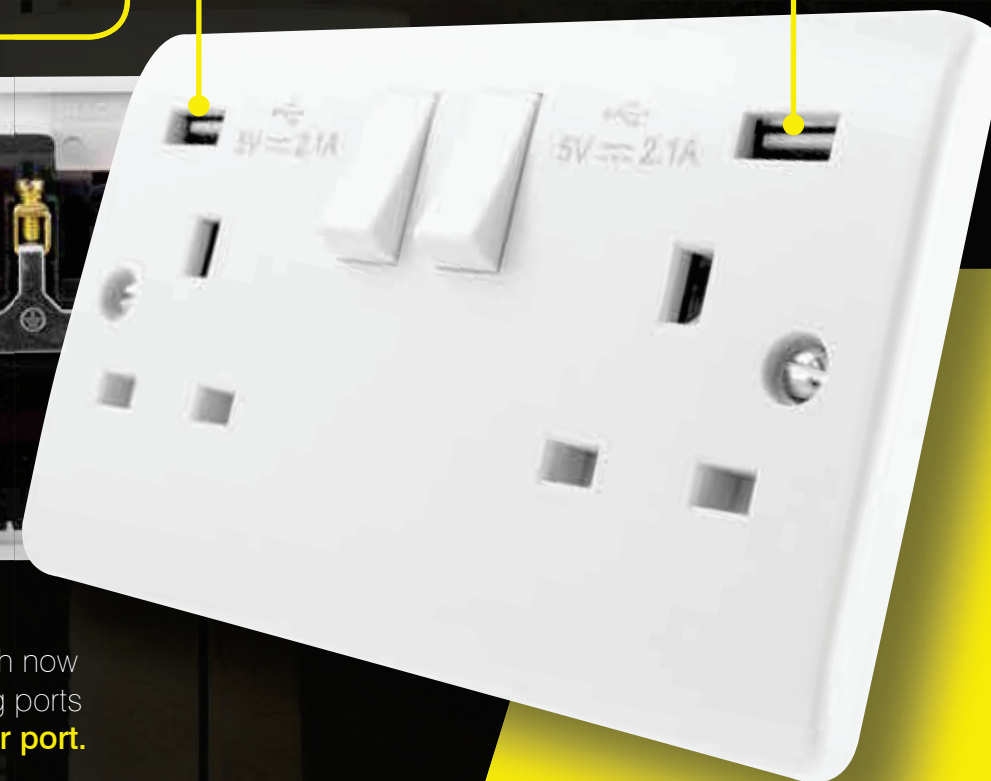

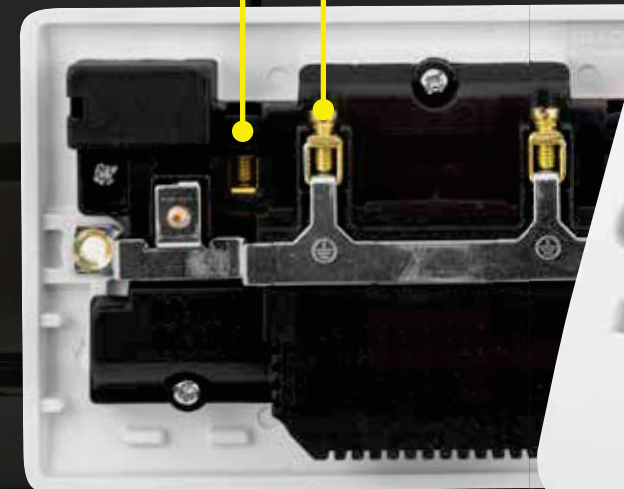

In-line terminals with the same orientation and large chamfered terminal entry.

Twin Earth Terminals

High integrity earthing.

Two USB charging ports

Both capable of delivering 5V 2.1A simultaneously.

We have redesigned the PCB which now contains two independent charging ports capable of delivering 5V 2.1A per port.

Don't need 2 USB Outlets?

Our 13A 2 Gang sockets with single 2.1A USB outlet are still available as a stylish alternative, please visit scolmore.com for more information.

Fully compliant with the most current and up to date USB Test Standards:

BS 1363-2: 2016 + A1: 2018
BS EN 62680-1-1: 2015
BS EN 62368-1: 2014

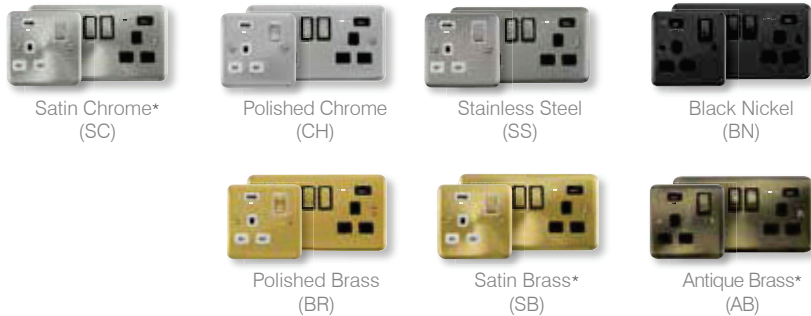

Suitable for tablets, smartphones, cameras and other USB devices.

Deco Plus®

1 Gang **DP*571U** | 2 Gang **DP*580**
